

A map of the contiguous United States divided into a 6x6 grid of squares. Each square contains two numbers: the top number represents the count of weather stations, and the bottom number represents the mean annual precipitation in inches. The values are as follows:

Row \ Column	Col 1	Col 2	Col 3	Col 4	Col 5	Col 6
Row 1 (North)	7 -2.6	3 -5.4	5 -4.8	2 -2.4	0 -2.6	0 -2.6
Row 2	5 -5.2	9 -4.7	13 -4	8 10	58 8	21 1.1
Row 3	29 -0.16	13 -4	26 -1.9	70 5.2	28 0.3	37 0.3
Row 4	16 2.7	11 -3.4	34 0.04	76 8	31 -0.8	13 0.6
Row 5			19 2.6	10 10.6	32 10	6.5
Row 6 (South)
